To Whom It May Concern

### Reference Letter for SerpTop

PRAWOLF (HUZHOU)CLUTCH CO., ltd has cooperated with the SerpTop team in a programme aimed at:

- developing the management system for the virtual catalogue of our company;
- developing the search algorithm against the internal database of spare car parts.

The SerpTop team was professional and hard-working in their approach and coped with the task perfectly. We were pleasantly surprised by the efficiency and careful elaboration of each phase of the working process. Now our company has a unique search engine, that expedited the general conduct of our business and made it easy-to-handle and accurate.

The management system of our web catalogue made it possible to add updates and new good items for our customers. It also had a beneficial effect on our work, and attracted new customers.

Taking into account our positive experience of cooperation, we would recommend SerpTop to anyone as a reliable, highly qualified and experienced partner for the implementation of IT-projects of any scale and complexity.

Sincerely,

Zhang Linchun

President
